

Product Data Sheet: MIS Fire Alarm Mains Isolator Switch

Dimensions

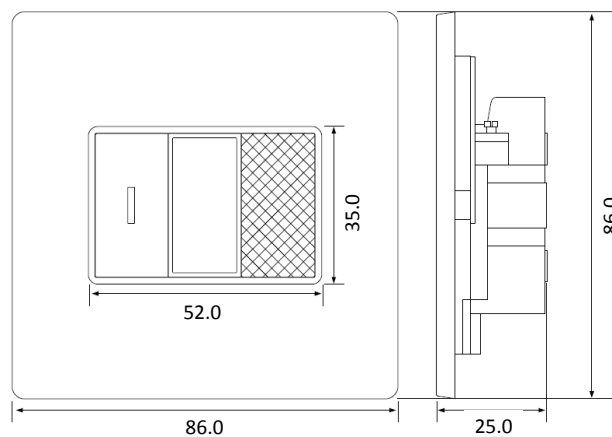

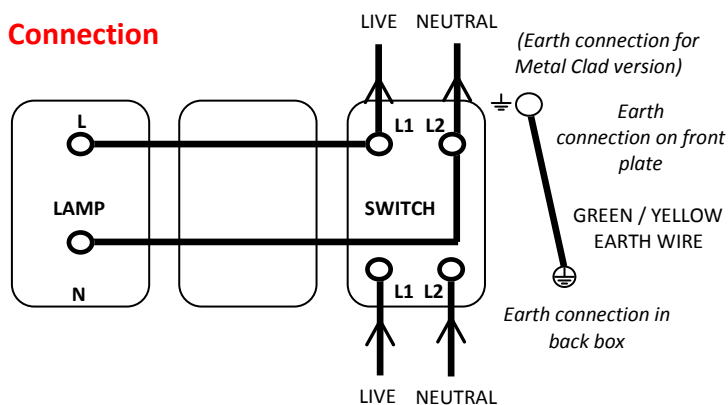

MIS-M-SM

Description

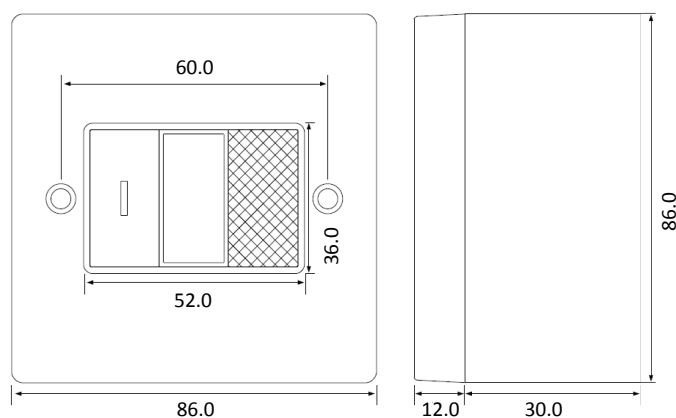

Our range of Fire Alarm Mains Isolator Switches provides a safe means to isolate the mains voltage to the fire alarm system and to ensure compliance with BS 5839-1: 2002. The isolator includes a neon indicator and 'FIRE ALARM. DO NOT SWITCH OFF' text.

Supplied as either a plastic flush or surface mount or a metal clad surface mount version.
