

Accessories for Door Holders

Floor Mount Bracket

A floor mounting bracket is available for the Surface Mount Door Holders. With this the Door Holder can be mounted in any convenient position on the floor to suit the door. It is supplied in a white finish with mounting instructions and is compatible with standard conduit back boxes.

Item Number – 4101-6001

Suitable for
4101-1001 to 4101-1005

Floor Mount Door Holder

Chain Keeper Plate

The Chain Keeper enables a wall mounted electromagnetic door holder to be used even when the door will not open fully to meet the magnet. It is a very flexible solution to awkward mounting. A one metre length of chain is supplied as standard.

Item Number – 4101-6002

Chain Keeper Plate

Low Profile Keeper Plate

The non-adjustable, slim style keeper plate is for use with 200N Door Holders. It is an alternative to the standard adjustable keeper design where the gap between the door and the magnet needs to be kept to a minimum.

Dimensions – Ø 71mm x Depth 27mm (from wall)

Item Number – 4101-6003

Low Profile Keeper Plate
